

Shafaq Charcoal Overview

Discover excellence with Shafaq Charcoal, a pioneer in producing, supplying, and exporting premium pistachio shell charcoal briquettes in Iran. Crafted from natural materials and chemical-free, our briquettes are a favorite among Shisha and Barbeque enthusiasts worldwide. Enjoy a delightful and odorless shisha experience with Shafaq Charcoal.

Vision

Establish a strong presence in GCC hookah charcoal markets, capturing 3% import share by 2026 using cutting-edge science, AI, and unique pistachio shell raw materials.

Mission

Lead in manufacturing and direct supply within the GCC, targeting diverse customers. Strive for substantial market share and long-term growth by leveraging pistachio shell raw materials and integrating AI into operations.

Why we use pistachio charcoals?

Pistachio shells, renowned for their dry texture and abundant oil, create superior charcoal. With 47.08% cellulose and low water content, they guarantee a clean and efficient burn. Opt for this eco-friendly choice for a premium grilling experience.

Long-lasting

The pistachio briquette burns for a minimum of 2 hours and a maximum of 2.5 hours.

Fast Ignition

Shorter Ignition time in comparison with coconut shell charcoal

Consistent & Higher Heat

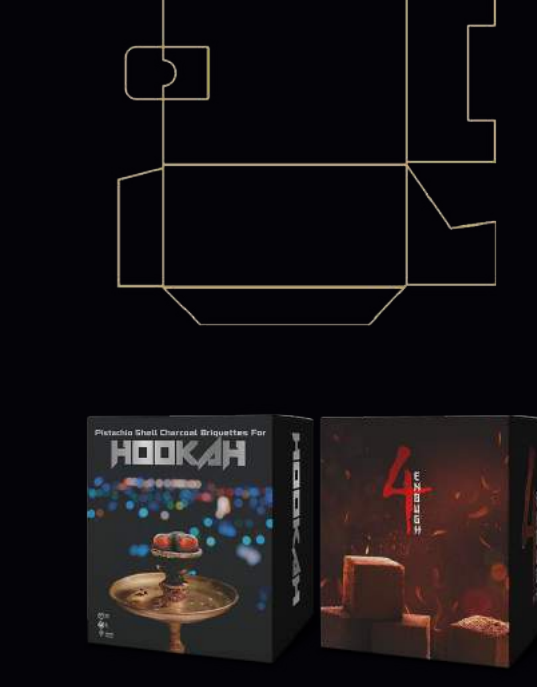

Higher and more consistent heat during burning

Environmentally Friendly

Because briquettes are made of common and renewable organic components, they are a sustainable fuel source.

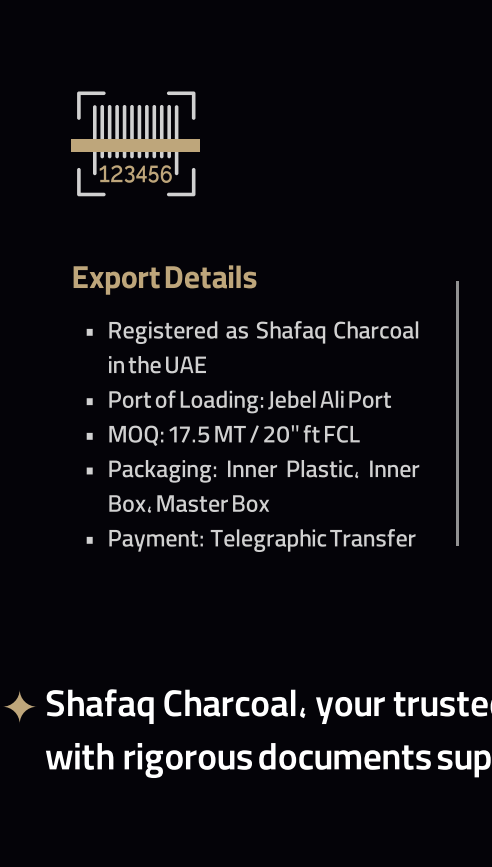

SHAPE & DIMENSIONS

"Enjoy our premium hookah charcoals with 72 cubes per 1 kg, featuring vibrant prints and a transparent cover.

Our pistachio shell briquettes are uniformly shaped, and customization options are available – discuss your preferences directly with us."
